HUB CITY OF THREE COUNTIES

WEST NILE VIRUS

The City of Katy is informing residents that the potential for West Nile Virus exists in the Katy area. There has been one confirmed case in the City of Katy that was related to the death of an elderly female. The City of Katy has increased surveillance and spraying operations. We advise our citizens to use caution when they are engaging in outdoor activities.

Remember:

- Mosquitoes are more prominent at night.
- Dress in long sleeves, long pants and closed toe shoes.
- Check outside areas for standing water, or anything that might harbor mosquitoes.
- Use repellent that contains DEET (*be sure to follow directions on the label*).
- Check windows and doors for adequate seals.

The City of Katy regards your health and safety as our number one priority. For more information please go to the Centers for Disease Control website.
